## WORK EXPERIENCE

---

### Mighty Software

2021 – Present

*Senior Director of Software Engineering*

*Remote*

- Lead and support our iOS and Android engineering teams (managers and individual contributors) – coaching, creating, and measuring objectives, and building processes and structures needed to sustain and grow the team.
- Ensure continuous delivery of over 600 white-labeled apps, in addition to Might Networks' flagship mobile app.
  - Oversee weekly release of over 30,000 annual builds to App & Google Play Stores (millions of users).
- Led the transition to total code ownership by Mobile Engineering, leading to \$1M/year in QA cost savings.

### Dexcom

2019 – 2021

*Director of Software Engineering*

*San Diego, CA*

- Built Dexcom's next-generation mobile app platform from conception all the way through FDA submission.
  - Life-saving mobile apps that delivered a modern, polished UX on mobile and wearable technology.
- Owned the mobile app and SDK components of key product lines representing over \$1B in annual revenue.
- Grew the mobile engineering team from 8 engineers to more than 100 engineers and 5 managers in 18 months.
- Implemented a novel Agile methodology that incorporated modern Agile software practices within an FDA-regulated "Software as a Medical Device" software development lifecycle, optimizing for both speed and safety.

### InterKnowlogy

2013 – 2019

*Director of Engineering | 2018 – 2019*

*Carlsbad, CA*

- Architected, prototyped, and launched XenoHolographic, a no-code cloud-powered augmented reality platform that enabled B2B users to upload, manage, and deliver AR experiences to their customers.

*Technical Fellow | 2016 – 2018*

- Owned software architecture, technical leadership, and people-managing the engineering team.
  - Ideation, design, and delivery of system architectures for clients such as Microsoft, CNN, & NASCAR.
  - DevOps: upgraded our automation and testing with containerization / virtualization (Docker).

*Senior Software Engineer | 2013 – 2016*

- Wrote critical software for Fortune 500 companies. **Notable Clients:** Deloitte, Iowa Caucuses, Callaway Golf.

### Medsphere Systems Corporation | Software Engineer

2010 – 2013

- Developed and delivered world-class clinical software solutions in C# and WPF for physicians.

### Northwestern Medicine | Programmer Analyst

2007 – 2010

### Clarity Consulting | Software Development Consultant

2005 – 2006

- Built Microsoft's VB6 interop toolkit for .NET.

## EDUCATION

---

### University of Notre Dame

December 2005

*Bachelor's, Computer Applications*

*South Bend, IN*

- **Major GPA: 3.5/4.0;** Apple Campus Representative ('03 – '05)

## SKILLS AND INTERESTS

---

- **Expertise:** Swift; Objective C; Kotlin; Java; C#; Xamarin; JavaScript; TypeScript; UWP; WPF; Azure; AWS
- **Proficiency:** Unity 3D (iOS / Android, scripts in C#); ARKit & ARCore; Node.js; ASP.NET; MVC; Web API
- **Other Skills:** Engineering Organizational Leadership; Team Management & Mentorship; Agile; Scrum; Software Architecture; Mobile Development, DevOps, CI/CD; Front End Web Development; QA Automation
- **Interests:** Sports (College Football); Biking; Musical Theater; European Travel; Italian Cooking; *Seinfeld*
